## PRESS RELEASE

**March 15, 2010**

**For Immediate Release**

---

### **GSA Contract Awarded to Roebuck Precision Machine, Inc.**

GOLDSBORO, NC – Roebuck Precision Machine, Inc. (RPM, Inc.) - a local machine shop and industrial tools and products supplier located in Wayne County, North Carolina - was recently awarded its U.S. General Services Administration (GSA) Schedule Contract, number GS-21F-0074W, in two categories: Tools Powered and Tools Non-powered. RPM, Inc. is now one of four GSA approved companies in the state for tools non-powered, and one of only two GSA approved companies for tools powered.

The five-year GSA contract will allow RPM, Inc. to be listed on an approved GSA Schedule 51V, Hardware Superstore, to provide Federal government customers with powered and non-powered industrial tools and products. Having a GSA Schedule contract will allow RPM, Inc. to further strengthen its relationship with military installations in North Carolina by providing industrial supplies at competitive prices. The full list of 8200 products is expected to be available May 2010.

“In times like these, you’ve got to have everything in place when you go door knocking,” says Mike Roebuck, President of RPM, Inc. “It’s been a two year process, and finally all of the pieces fit to complete the puzzle. It feels like we are at the end of the runway, getting ready to pull up the wheels and really take off.”

“In the face of one of the worst economic downturns, RPM, Inc. saw an opportunity to not just survive, but to grow their company,” said Mike Haney, VP/Existing Industry Specialist, WCDA. “Innovative thinking in times of economic uncertainty is key to weathering the storm. RPM, Inc. is definitely on the right track.”

General Services Administration (GSA) is the central management agency that sets Federal policy for Federal procurement and real property management and information resources management. Federal agencies can obtain information about Roebuck Precision Machine, Inc. offerings on the GSA Advantage web site at: [www.gsaadvantage.gov](http://www.gsaadvantage.gov) (search for Contract Number: GS21F0074W) or by contacting Mike Roebuck at [mike@roebuckmachine.com](mailto:mike@roebuckmachine.com) or (919) 735-3172.

Roebuck Precision Machine, Inc. is a Service Disabled Veteran Owned Small Business located in Goldsboro – Wayne County, North Carolina. RPM, Inc. provides machining services - including machining, fabrication,
